

Gauber Bunk Barn

Information about your stay

-Our water supply comes from a nearby borehole. The water is tested annually by Craven District Council and is safe to drink. If you would prefer to drink bottled water we do have bottles available for purchase.

Our water passes through a UV filtration system. At times,(usually after heavy rainfall) the filters can become blocked and cause a drop in water pressure. Please let us know as soon as possible if you notice a drop in water pressure and we will change the filter, it takes 2 minutes!

- A septic tank collects waste from the barn and Den. Please do not put any products other than toilet paper down the toilet.
